Section II - Qualifications

In the space provided, explain why you think this individual would be an excellent candidate for the Dissemination Implementation Steering Committee (DISC), including:

- 1) Women's healthcare experience, from provider, consumer, payer, advocacy, or public health perspectives.
- 2) Experience and familiarity with implementing clinical recommendations into practice. Include familiarity with performance measures, quality improvement, or clinical decision support.
- 3) Ability to reach a wide audience of provider, consumer, and payers. Ability to reach frequently underserved or vulnerable populations.
- 4) Why is this individual an excellent candidate for the DISC?

Please refer to the nomination criteria.

Please disclose any conflicts of interest held by the nominee, their immediate family members or business associates:

Section III – Organizational Information

If your organization has previously developed implementation resources or tools, link to or list them below:

If your organization has partnered with other stakeholders on women's health issues, please list the collaborating organizations below:

Please check the box if you are interested in joining the WPSI DISC Product Review Subcommittee. The DISC Product Review Subcommittee will be tasked with reviewing all DISC materials created by the WPSI. On occasion they may be asked to assist with the creation of patient and clinician facing products.

If you have any questions or need additional information, please contact WPSI staff at wpsi@acog.org.
